

Treatment statement

The undersigned hereby states that he or she has applied a flame-retardant treatment to the items below using the flame retardant FRS-TSN according to the Product Data Sheet of the manufacturer of the FRS-TSN flame retardant.

Having received the correct treatment, the items comply with the requirements established in the 2004 edition of the NEN-EN-ISO 6940/41 standard, namely that the duration of the after-flame be no more than 15 seconds and that the duration of the after-glow be no more than 60 seconds.

This treatment statement will expire if the treated items are washed, cleaned, or processed chemically or with water. If such is the case, the items must be treated once again with a fire retardant.

Method of application: Spray/~~immersion~~ (delete as appropriate)

This certificate is valid for five years as of the date below.
